City of Powers Lake Building Permit

In accordance with the provision of Powers Lake City Building Code Ordinance Chapter 6 Planning & Zoning, permit for the erection, construction establishment alteration or enlargement of any building structure or improvement (including fencing).

I/We _____ do agree to comply with all the requirements of said ordinance and do make application for permit to construct, alter or enlarge. Describe the proposed structure or changes being made to an existing structure:

Legal Description: _____

Contractors & Sub-contractors License # (indicate which state) _____

Attachments:

Plat showing the actual dimension of the lot or lots to be built on.

Draw property lines and distance to property lines of new and existing structure. Include all dimensions.

New construction requires a preliminary plot plan before building permit issuance.

An addition may or may not require an as-built of the property prior to construction. For additions, draw the additions with dotted lines and the existing structure with solid lines.

For alterations without changing the footprint of existing buildings/property, explain the improvements below: _____

Mandatory that the permit be approved before the above said alteration, enlargement or construction shall begin. Failure to do so will result in a "cease and desist" order.

Applicant signature: _____

Dated this _____ day of _____ year _____

Approved _____ Disapproved _____ by _____ Building permit councilmember/Mayor

Dated this _____ day of _____ year _____
